

OBITUARY:
ROBERT OSCAR SCHUSTER (1927–1989)

TIMOTHY L. TYLER, RICHARD M. BOHART
AND ALBERT A. GRIGARICK

Department of Entomology, University of California,
Davis, California 95616

Robert Oscar Schuster was born 27 Jun 1928 in Winona, Minnesota and died of cancer in Sacramento, California on 15 Aug 1989. Bob Schuster was married twice. From his first marriage he is survived by a daughter, Tracy Lynn, a son, Randall Owen, and three granddaughters, Claudia de la Fuente, Caroline Elizabeth Schuster, and Kristen Michelle Schuster. He is also survived by his second wife, Jeannette Clark.

Bob was an Eagle Scout in the Boy Scouts of America. He graduated from Oakland High School in June, 1946. While attending Oakland High, he worked part-time at the California Academy of Sciences in San Francisco, California, as an insect preparator. He joined the U.S. Army as a cryptographer and was discharged in 1949 as a sergeant. Bob then attended City College of San Francisco from 1949 to 1950, and transferred to the University of California, Berkeley in 1950. He again served as a sergeant in the U.S. Army from January to November, 1951. He graduated from Berkeley in February, 1955 with a Bachelor of Science degree in Entomology with emphasis on systematics and museum practices and a minor in botany.

He worked from October, 1954 through July, 1955 at U.C. Berkeley for the California Insect Survey as a lab assistant in entomology; for the U.S. Forest Service studying the anatomy of *Pinus ponderosa* Lawson and serving as curator of a Forest Insect Collection; for Northwestern University at Evanston, Illinois studying arthropods of Point Barrow, Alaska; and for the U.S. Department of Agriculture on a Khapra beetle survey in the San Joaquin Valley of California.

Bob had a long and productive career beginning in his undergraduate years at U.C. Berkeley, where he became familiar with several entomologists who became his lifelong colleagues, correspondents, and friends. He began employment at the University of California, Davis on 24 Sep 1956, where he worked on mite pests of grapes with Dr. Leslie Smith. Following the retirement of Arthur McClay, Bob took charge of the Entomology Museum. He became the Senior Museum Scientist at the entomology museum (later to become the Bohart Museum of Entomology) in 1965, and essentially assumed the duties of its curator. Through his efforts, both in personal research and arthropod collecting, and in developing a worldwide network of colleagues to collect and conduct systematic research, the museum grew from a mostly local collection to a large worldwide enterprise containing upwards of six million specimens of insects and other arthropods. He also was responsible for the departmental policy of retaining primary type material described from the U.C. Davis collection.

Bob took several steps to ensure that the entomology museum at U.C. Davis would remain a collection repository. He obtained recognition from the Regents

of the University of California in 1983, that the museum was a university wide resource with an official name as the R. M. Bohart Museum of Entomology. Subsequently, Bob was the primary organizer of the Bohart Museum Society, the duty of which is the support of the collection.

He belonged to several other professional societies, including the Association of Systematic Collections, and maintained an interest in local, state and federal policy and politics that could influence the continued support of systematics in general, and the Bohart Museum, in particular. He hoped that all the museums on the U.C. Davis campus would eventually be housed in a single new building, with a director to increase their collective stability and utility in the face of shifting academic priorities.

Bob's special interest in the systematics were Pselaphidae, Tardigrada, and Acarina. His work on Coleoptera began when he and Gordon Marsh did a major study on the Pselaphidae, a remarkable accomplishment for two undergraduates. Over the years he published many papers in cooperation with other experts, some of whom became involved because of Bob's enthusiasm. Examples are his mite studies, first with A. E. Pritchard, later with Francis Summers and Michele Lavoipierre. In the Pselaphidae his cooperators were Gordon Marsh and Orlando Park, and later Albert Grigarick. On Tardigrades he worked with Albert Grigarick, Elizabeth Toftner, Diane Nelson, and Donald (Woody) Horning, Jr.

Bob tried to encourage interest in the Bohart Museum both inside and outside the university system. Over the years, several thousand grade school children from Davis and other communities came to view the spectacular arthropods on display and to hear Bob talk about them. Bob also gave regular short courses on use of the scanning electron microscope in the Department of Entomology at U.C. Davis. Contrary to this interest in teaching, however, he refused to take additional formal course work that would have led to a higher degree.

Bob had a compelling commitment to productivity and frequently had little patience with those he felt were counter productive. His demanding work ethic was fed by the love for his tasks and the self reward of accomplishment. Bob was a strong competitor, whether it was with a ping-pong paddle, an insect net, or a given volume of beverage. He was great company on his many collecting trips that ranged from the Galapagos Islands, to the jungles of Venezuela, to the populated environs of San Domingo, to the shores of California's Channel Islands, to the mountain lakes of the Sierra Nevada. The success of these trips were insured by his drive and resourcefulness. On the second of his two trips to the Galapagos, the ship Bob was on caught fire and exploded; the passengers escaped to life boats, but unfortunately without their personal possessions or Bob's extensive insect collections.

Bob was a remarkable person. He accomplished more in research than most professionals even though not paid to do so. He worked many nights building insect cases and drawers. Other nights he spent describing arthropods. For relaxation and recreation, Bob was an avid sailor on weekends at Lake Washington, near Sacramento. He was also an officer and member of the U.C. Davis Sailing Club.

Bob had an outward mode of cynicism. This quickly broke down in the company of students and other friends, and it disappeared completely in the last few months of his life. In his last days he continued to come to the museum during regular

working hours, and would return later for the regular Wednesday "sort night" where volunteers practiced their insect sorting skills, talked with Bob, and generally helped out with work around the Museum in return for the ever-present popcorn, chips and salsa, and beverages. At his last sort night, Bob injected some large sphingids and mounted them on a spreading board with the intention of attending the next weekly "sort night." During a visit (by RMB) to Bob in the hospital on the day he died, he was asked if there was anything that he wanted. He replied, "You can keep the Museum going." Many people attended the memorial remembrance held of Bob, which he wanted to be viewed as a "celebration." He wanted people to be positive and have fun at his passing, not be sad. Robert Schuster died long before he accomplished many things he had hoped to, but the results of his scientific endeavors will not be forgotten.

TAXA NAMED BY ROBERT OSCAR SCHUSTER

Robert O. Schuster and his coauthors named 40 new genera, and 325 species (in 75 genera from 22 families).

Phylum Tardigrada
Class Eutardigrada
Order Parachela
Family Hypsibiidae

Hypsibius (Diphascon) iltisi Schuster & Grigarick, 1965: 32.

Hypsibius (Isohypsibius) wilsoni Horning, Schuster & Grigarick, 1978: 217.

Isohypsibius saltursus Schuster, Toftner & Grigarick, 1977: 126.

Family Macrobiotidae

Dactylobiotus Schuster, 1980: 294; in Schuster, R. O., D. R. Nelson, A. A. Grigarick & D. Christenberry, 1980.

Macrobiotus bisoctus Horning, Schuster & Grigarick, 1978: 236.

Macrobiotus grandipes Schuster, Toftner & Grigarick, 1977: 118.

Macrobiotus intermedius subjulietae Horning, Schuster & Grigarick, 1978: 237.

Macrobiotus rawsoni Horning, Schuster & Grigarick, 1978: 231.

Macrobiotus tridigitus Schuster, 1983: 254.

Macrobiotus zyxiglobus Horning, Schuster & Grigarick, 1978: 226.

Minibiotus Schuster, 1980: 294; in Schuster, R. O., D. R. Nelson, A. A. Grigarick & D. Christenberry, 1980.

Pseudodiphascon dubius Schuster & Toftner, 1982: 228.

Order Apochela
Family Milnesiidae

Limmenius Horning, Schuster & Grigarick, 1978: 247.

Limmenius porcellus Horning, Schuster & Grigarick, 1978: 249.

Class Heterotardigrada
Family Echiniscidae

Bryodelphax crossotus Grigarick, Schuster & Nelson, 1983: 69.

Echiniscus (Bryodelphax) dominicanus Schuster & Toftner, 1982: 225.

Echiniscus (Echiniscus) laterculus Schuster, Grigarick & Toftner, 1980: 265.

- Echiniscus (Echiniscus) nigripustulus* Horning, Schuster & Grigarick, 1978: 191.
Echiniscus (Echiniscus) porabrus Horning, Schuster & Grigarick, 1978: 198.
Echiniscus (Echiniscus) vinculus Horning, Schuster & Grigarick, 1978: 192.
Echiniscus (Echiniscus) zetotrymus Horning, Schuster & Grigarick, 1978: 198.
Echiniscus aliquantilus Grigarick, Schuster & Nelson, 1983: 73.
Echiniscus becki Schuster & Grigarick, 1966c: 127.
Echiniscus cavagnaroi Schuster & Grigarick, 1966b: 321.
Echiniscus horningi Schuster & Grigarick, 1971: 105.
Echiniscus knowltoni Schuster & Grigarick, 1971: 109.
Echiniscus kofordi Schuster & Grigarick, 1966b: 321.
Echiniscus mosaicus Grigarick, Schuster & Nelson, 1983: 76.
Echiniscus marginoporus Grigarick, Schuster & Nelson, 1983: 76.
Oreella breviclava Grigarick, Schuster & Nelson, 1983: 66.
Parechiniscus armadilloides Schuster, 1975: 335.
Pseudechiniscus conversus Horning & Schuster, 1983: 108.
Pseudechiniscus goedeni Grigarick, Mihelčič & Schuster, 1964: 5.
Pseudechiniscus parvisentus Horning & Schuster, 1983: 109.
Pseudechiniscus perplexus Horning & Schuster, 1983: 111.
Pseudechiniscus raneyi Grigarick, Mihelčič & Schuster, 1964: 6.
Pseudechiniscus (Echiniscus) robertsi Schuster & Grigarick, 1965: 56.

Class Arachnida
Order Acarina
Family Canestriniidae

- Anapistes* Summers & Schuster, 1982b: 43.
Anapistes unguiculatus Summers & Schuster, 1982b: 43.
Apalotacarus Summers & Schuster, 1981a: 20.
Apalotacarus aristatus Summers & Schuster, 1981a: 28.
Apalotacarus cidaris Summers & Schuster, 1981a: 25.
Apalotacarus echinatus Summers & Schuster, 1981a: 33.
Apalotacarus fulgens Summers & Schuster, 1981a: 31.
Apalotacarus fusticulus Summers & Schuster, 1981a: 31.
Apalotacarus fusulus Summers & Schuster, 1981a: 20.
Apalotacarus glaber Summers & Schuster, 1981a: 25.
Apalotacarus gracilis Summers & Schuster, 1981a: 33.
Apalotacarus luroris Summers & Schuster, 1981a: 33.
Apalotacarus paxillus Summers & Schuster, 1981a: 21.
Apalotacarus petilus Summers & Schuster, 1981a: 23.
Apalotacarus protensus Summers & Schuster, 1981a: 28.
Apalotacarus rigescens Summers & Schuster, 1981a: 27.
Apalotacarus scaurus Summers & Schuster, 1981a: 30.
Apalotacarus scissus Summers & Schuster, 1981a: 37.
Apalotacarus trullus Summers & Schuster, 1981a: 23.
Arraphosoma Summers & Schuster, 1981b: 44.
Arraphosoma minax Summers & Schuster, 1981b: 44.
Arraphosoma paraminax Summers & Schuster, 1981b: 44.
Chelinochroa Summers & Schuster, 1982b: 41.
Chelinochroa dictyophora Summers & Schuster, 1982b: 41.

- Cnecoderma* Summers & Schuster, 1981b: 39.
Cnecoderma dolichopoda Summers & Schuster, 1981b: 41.
Cnecoderma ovalis Summers & Schuster, 1981b: 39.
Hypopyteryx Summers & Schuster, 1981b: 41.
Hypopyteryx collaris Summers & Schuster, 1981b: 41.
Melisia leptinotarsa Summers & Schuster, 1982a: 25.
Melisia sentosa Summers & Schuster, 1982a: 27.
Melisia superba Summers & Schuster, 1982a: 27.
Paramelisia Summers & Schuster, 1982a: 29.
Paramelisia alatus Summers & Schuster, 1982a: 29.
Paramelisia lacuna Summers & Schuster, 1982a: 29.
Phriknodora Summers & Schuster, 1982b: 43.
Phriknodora pustulosa Summers & Schuster, 1982b: 43.
Phriknodora scabra Summers & Schuster, 1982b: 46.
Taseopus Summers & Schuster, 1982a: 27.
Taseopus platythrinx Summers & Schuster, 1982a: 27.
Thopia Summers & Schuster, 1982b: 35.
Thopia bulbocaudata Summers & Schuster, 1982b: 37.
Thopia pannucea Summers & Schuster, 1982b: 41.
Thopia tenax Summers & Schuster, 1982b: 37.

Family Diarthrophallidae

- Abrotarsala* Schuster & Summers, 1978: 323.
Abrotarsala arciformis Schuster & Summers, 1978: 334.
Abrotarsala cuneiformis Schuster & Summers, 1978: 333.
Abrotarsala firundale Schuster & Summers, 1978: 331.
Abrotarsala inconstans Schuster & Summers, 1978: 333.
Abrotarsala longifemoralis Schuster & Summers, 1978: 327.
Abrotarsala obesa Schuster & Summers, 1978: 331.
Abrotarsala pyriformis Schuster & Summers, 1978: 327.
Abrotarsala rimatoris Schuster & Summers, 1978: 325.
Abrotarsala simplex Schuster & Summers, 1978: 329.
Acaridryas Schuster & Summers, 1978: 301.
Atrema Schuster & Summers, 1978: 335.
Atrema crassa Schuster & Summers, 1978: 337.
Atrema nasica Schuster & Summers, 1978: 339.
Atrema parvula Schuster & Summers, 1978: 335.
Brachytremelloides brevipoda Schuster & Summers, 1978: 345.
Brachytremelloides mastigophora Schuster & Summers, 1978: 348.
Brachytremelloides minuta Schuster & Summers, 1978: 348.
Diarthrophallus aurosus Schuster & Summers, 1978: 293.
Diarthrophallus crinatus Schuster & Summers, 1978: 295.
Diarthrophallus fulvastrum Schuster & Summers, 1978: 295.
Eurysternodes Schuster & Summers, 1978: 303.
Liranotus Schuster & Summers, 1978: 372.
Liranotus liratus Schuster & Summers, 1978: 375.
Liranotus strigatus Schuster & Summers, 1978: 375.
Malasudis Schuster & Summers, 1978: 315.

- Malasudis echinopus* Schuster & Summers, 1978: 317.
Malasudis tribulus Schuster & Summers, 1978: 317.
Miniplax Schuster & Summers, 1978: 313.
Miniplax africanus Schuster & Summers, 1978: 313.
Notoporus Schuster & Summers, 1978: 309.
Notoporus asperatus Schuster & Summers, 1978: 313.
Notoporus clypeolus Schuster & Summers, 1978: 309.
Paralana Schuster & Summers, 1978: 299.
Paralana proculae Schuster & Summers, 1978: 299.
Passolobia hunteri Schuster & Summers, 1978: 355.
Passolobia minygaster Schuster & Summers, 1978: 357.
Passolobiella Schuster & Summers, 1978: 359.
Passolobiella colaptes Schuster & Summers, 1978: 370.
Passolobiella colombiensis Schuster & Summers, 1978: 367.
Passolobiella comantis Schuster & Summers, 1978: 371.
Passolobiella ctenophora Schuster & Summers, 1978: 369.
Passolobiella patula Schuster & Summers, 1978: 365.
Passolobiella sellifera Schuster & Summers, 1978: 363.
Passolobiella spatha Schuster & Summers, 1978: 367.
Passolobiella subnuda Schuster & Summers, 1978: 363.
Polytrechna Schuster & Summers, 1978: 341.
Polytrechna serrula Schuster & Summers, 1978: 341.
Trochtognathus Schuster & Summers, 1978: 319.
Trochtognathus tetradis Schuster & Summers, 1978: 319.
Tenuiplanta Schuster & Summers, 1978: 285.
Tenuiplanta polypora Schuster & Summers, 1978: 287.

Family Heterocheylidae

- Heterocheylus becki* Schuster & Lavoipierre, 1970: 21.
Heterocheylus bengalensis Schuster & Lavoipierre, 1970: 14.
Heterocheylus brevispinus Schuster & Lavoipierre, 1970: 11.
Heterocheylus cavagnaroi Schuster & Lavoipierre, 1970: 17.
Heterocheylus exiguus Schuster & Lavoipierre, 1970: 16.
Heterocheylus incohatus Schuster & Lavoipierre, 1970: 20.
Heterocheylus indicus Schuster & Lavoipierre, 1970: 15.
Heterocheylus keiferi Schuster & Lavoipierre, 1970: 24.
Heterocheylus laui Schuster & Lavoipierre, 1970: 23.
Heterocheylus longispinosus Schuster & Lavoipierre, 1970: 12.
Heterocheylus maai Schuster & Lavoipierre, 1970: 18.
Heterocheylus malkini Schuster & Lavoipierre, 1970: 11.
Heterocheylus minus Schuster & Lavoipierre, 1970: 23.
Heterocheylus nixus Schuster & Lavoipierre, 1970: 20.
Heterocheylus novellus Schuster & Lavoipierre, 1970: 22.
Heterocheylus parvus Schuster & Lavoipierre, 1970: 19.
Heterocheylus propinquus Schuster & Lavoipierre, 1970: 13.
Heterocheylus proximus Schuster & Lavoipierre, 1970: 27.
Heterocheylus recessus Schuster & Lavoipierre, 1970: 10.
Heterocheylus rossi Schuster & Lavoipierre, 1970: 9.

- Heterocheylus rugosus* Schuster & Lavoipierre, 1970: 16.
Heterocheylus thai Schuster & Lavoipierre, 1970: 15.
Heterocheylus transversus Schuster & Lavoipierre, 1970: 25.

Family Phytoseiidae

- Amblyseius ablusus* Schuster & Pritchard, 1963: 243.
Amblyseius cavagnaroi Schuster, 1966e: 327.
Amblyseius chorites Schuster & Pritchard, 1963: 240.
Amblyseius corycus Schuster, 1966e: 329.
Amblyseius fructicolus Gonzalez & Schuster, 1962: 12.
Amblyseius globosus Gonzalez & Schuster, 1962: 9.
Amblyseius huffakeri Schuster & Pritchard, 1963: 271.
Amblyseius incognitus Schuster, 1966e: 334.
Amblyseius intermedius Gonzalez & Schuster, 1962: 14.
Amblyseius inornatus Schuster & Pritchard, 1963: 255.
Amblyseius invictus Schuster, 1966e: 331.
Amblyseius kennetti Schuster & Pritchard, 1963: 265.
Amblyseius lassus Schuster, 1966e: 334.
Amblyseius lecanis Schuster & Pritchard, 1963: 231.
Amblyseius lindquisti Schuster & Pritchard, 1963: 246.
Amblyseius loxus Schuster & Pritchard, 1963: 263.
Amblyseius mckenziei Schuster & Pritchard, 1963: 269.
Amblyseius pegasus Schuster, 1966e: 329.
Amblyseius scyphus Schuster & Pritchard, 1963: 274.
Amblyseius tabis Schuster & Pritchard, 1963: 275.
Amblyseius tubus Schuster, 1966e: 337.
Amblyseius vallis Schuster & Pritchard, 1963: 267.
Amblyseius valpoensis Gonzalez & Schuster, 1962: 16.
Iphiseius exitus Schuster, 1966e: 325.
Iphiseius pappenfussi Schuster, 1966e: 323.
Metaseiulus brevicollis Gonzalez & Schuster, 1962: 19.
Metaseiulus pinnatus Schuster & Pritchard, 1963: 217.
Metaseiulus pomoides Schuster & Pritchard, 1963: 221.
Mumaseius evectus Schuster, 1966e: 321.
Mumaseius foraminosus Schuster, 1966e: 321.
Phytoseius globosus Gonzalez & Schuster, 1962: 21.
Typhlodromus (Typhlodromus) caudiglans Schuster, 1959b: 88.
Typhlodromus smithi Schuster, 1957: 203.

Order Chelonethida Family Chelonethidae

- Allochthonius incognitus* Schuster, 1966b: 174.
Apochthonius irwini Schuster, 1966c: 179.
Apochthonius maximus Schuster, 1966c: 182.
Apochthonius minimus Schuster, 1966c: 178.
Kewochthonius amplus Schuster, 1962: 225.
Kewochthonius spingolus Schuster, 1962: 223.

Parobisium hastatus Schuster, 1966d: 223.

Parobisium hesternus Schuster, 1966d: 225.

Order Coleoptera
Family Clambidae

Loricaster rotundus Grigarick & Schuster, 1961: 161.

Family Pselaphidae

Actiastes desertorum Grigarick & Schuster, 1971: 30.

Actiastes fovicinus Grigarick & Schuster, 1971: 32.

Actiastes fundatum Grigarick & Schuster, 1971: 33.

Actiastes spatium Grigarick & Schuster, 1971: 29.

Actium aculeatum Grigarick & Schuster, 1971: 23.

Actium arundineum Grigarick & Schuster, 1971: 5.

Actium barbatum Grigarick & Schuster, 1971: 17.

Actium calcaris Grigarick & Schuster, 1971: 11.

Actium chiloquinensis Grigarick & Schuster, 1971: 15.

Actium falcatum Grigarick & Schuster, 1971: 20.

Actium fastigium Grigarick & Schuster, 1971: 23.

Actium fastosum Grigarick & Schuster, 1971: 21.

Actium femineum Grigarick & Schuster, 1971: 25.

Actium formosum Grigarick & Schuster, 1971: 6.

Actium functum Grigarick & Schuster, 1971: 12.

Actium helferi Grigarick & Schuster, 1971: 8.

Actium ojaiensis Grigarick & Schuster, 1971: 22.

Actium pandum Grigarick & Schuster, 1971: 13.

Actium rothi Grigarick & Schuster, 1971: 9.

Actium tempus Grigarick & Schuster, 1971: 14.

Actium tenellum Grigarick & Schuster, 1971: 13.

Actium tentum Grigarick & Schuster, 1971: 12.

Actium wawonaensis Grigarick & Schuster, 1971: 7.

Allobrox stephani Grigarick & Schuster, 1977: 219.

Batrisodes indistinctus Grigarick & Schuster, 1962c: 201.

Batrisodes martini Grigarick & Schuster, 1962c: 201.

Batrisodes nebulosus Grigarick & Schuster, 1962c: 202.

Batrisodes obscurus Grigarick & Schuster, 1962c: 206.

Batrisodes opacus Grigarick & Schuster, 1962c: 210.

Bontomtes Grigarick & Schuster, 1980: 24.

Bontomtes riparie Grigarick & Schuster, 1980: 26.

Bythinoplectus peregrinus Schuster & Grigarick, 1966a: 53.

Cupila multifossa Grigarick & Schuster, 1968: 43.

Euboarhexius Grigarick & Schuster, 1966: 31.

Euboarhexius sinus Grigarick & Schuster, 1966: 31.

Euplecturga fidei Grigarick & Schuster, 1976: 108.

Euplecturga norstelcha Grigarick & Schuster, 1976: 109.

Hesperotychus Schuster & Marsh, 1958a: 126.

Hesperotychus aculeatus Schuster & Marsh, 1958a: 132.

Hesperotychus adustus Schuster & Marsh, 1958a: 126.

- Hesperotychus aspersus* Schuster & Marsh, 1958a: 129.
Hesperotychus claudus Schuster & Marsh, 1958a: 128.
Hesperotychus fenysei Schuster & Marsh, 1958a: 130.
Hesperotychus nanus Schuster & Marsh, 1958a: 129.
Hesperotychus macclayi Schuster & Marsh, 1958a: 131.
Hesperotychus moratus Schuster & Marsh, 1958a: 129.
Hesperotychus stangei Grigarick & Schuster, 1962a: 99.
Hesperotychus tantillus Schuster & Marsh, 1958a: 136.
Hexirhexius Grigarick & Schuster, 1980: 20.
Hylotychus cornus Grigarick & Schuster, 1962b: 176.
Hylotychus dentatus Grigarick & Schuster, 1962b: 170.
Hylotychus intellectus Grigarick & Schuster, 1962b: 171.
Hylotychus remipenis Grigarick & Schuster, 1962b: 172.
Hylotychus simplicis Grigarick & Schuster, 1962b: 176.
Hylotychus stellatus Grigarick & Schuster, 1962b: 172.
Liniolis Grigarick & Schuster, 1980: 34.
Lucifotychus agomphius Grigarick & Schuster, 1962b: 169.
Lucifotychus inornatus Grigarick & Schuster, 1964: 201.
Mayetia bicorona Schuster, Marsh & Park, 1959: 124.
Mayetia bowmani Schuster, Marsh & Park, 1959: 120.
Mayetia domestica Schuster, Marsh & Park, 1959: 125.
Mayetia fistula Schuster, Marsh & Park, 1960: 22.
Mayetia grayae Schuster, 1961: 23.
Mayetia judsoni Schuster, 1961: 26.
Mayetia langei Schuster, Marsh & Park, 1960: 21.
Mayetia mendocinoensis Schuster, Marsh & Park, 1960: 15.
Mayetia pearsei Schuster, Marsh & Park, 1959: 124.
Mayetia pravitas Schuster, Marsh & Park, 1960: 22.

SPECIES NAMED AFTER ROBERT O. SCHUSTER

Phylum Tardigrada
 Class Eutardigrada
 Family Hypsibiidae

- Parascon schusteri* Pilato & Binda, 1987: 91. (Pilato, G. & M. G. Binda. 1987. *Animalia*, 14:91–97.)
Diphascon schusteri Dastych, 1984: 412. (Dastych, H. 1984. The Tardigrada from Antarctic with descriptions of several new species. *Acta Zool. Cracov.*, 27: 377–436. [sic].)

Class Arachnida
 Order Acarina
 Family Phytoseiidae

- Amblyseius schusteri* Chant, 1960. (Chant, D. A. 1960. *Can. Entomol.*, 89:88.)

Class Insecta
Order Coleoptera
Family Pselaphidae

- Bythinoplectus schusteri* Comellini, 1985 (Comellini, A. 1985. Rev. Suisse Zool., 92: 738.)
Goniocerus schusteri Comellini (Comellini, A. [in press]. Rev. Suisse Zool.)
Oropus schusteri Chandler, 1983 (Chandler, A. 1983. Coleopt. Bull., 37: 222.)
Pyxidion schusteri Comellini, 1985 (Comellini, A. 1985. Rev. Suisse Zool., 92: 746.)

Order Diptera
Family Agromyzidae

- Napomyza schusteri* Spencer, 1981 (Spencer, K. 1981. Univ. Calif. Special Publ., 3273:361.)
Amauromyza schusteri Spencer, 1981 (Spencer, K. 1981. Univ. Calif. Special Publ., 3273: 159.)

Family Tabanidae

- Esenbeckia (Ricardoia) schusteri* Philip, 1973 (Philip, C. 1973. Ann. Entomol. Soc. Am., 66: 1143.)

Order Hymenoptera
Family Chrysididae

- Chrysis schusteri* Bohart, 1982 (Bohart, R. M. 1982. Mem. Am. Entomol. Instit. [Gainesville, Florida], 33: 133.)

Family Sphecidae

- Philanthus schusteri* Bohart, 1972 (Bohart, R. M. 1972. Proc. Entomol. Soc. Wash., 74: 400.)

Order Trichoptera
Family Psychomyiidae

- Tinodes schusteri* Denning, 1983 (Denning, D. 1983. Pan-Pac. Entomol. 58: 209.)
